# RE// LINER BAGS

## EXTRA VALUE ADDED

- Designed and Manufactured in Europe for over 25 years
- Internal R&D team developing new solutions and innovations
- Personalized consultancy and onsite assistance
- Total Quality and Environmental Management System (ISO 9000 - 14001)
- Food Safety Management System (ISO 22000)
- Selected raw materials from first class suppliers
- Insurance coverage
- Global distribution network granting fast response times

## FIELDS OF APPLICATION

### Food and Feed

Barley, cattle feed, cocoa, corn, fishmeal, flour, ground nuts, lentils, milk powder, mixed grain feed, nuts, peas, rice, salt, seeds, soya beans, starch, sugar, tea leaf, wheat, grain, flour.

### Chemicals

ABS resin, aluminum, fertilizers (certain), glass beads, nylon polymer chip, polyester granules, PE granules, PP granules, PVC powder, PTA powder, soda, catalysts, pigments, zinc powder, detergents, carbon black.

### Minerals

Anhydrite binder, bentonite clay, gypsum, silica, talcum powder, tri-poly phosphate, vanadium slag, aluminum fluoride, bleaching earth, titanium dioxide, zeolite, cement, lime, chalk.

### Wastes

Organic waste, residue sludge and ashes from industrial and organic processes.

## THE LOOP CLOSURE

Despite Liner Bags are already the most efficient and environmental friendly bulk packaging solutions, we are committed to improve and develop a better product.

As we achieved in the past a reduction of 20% of the average thickness and weight of the standard Liner, **today we go further and we launch Recyclable and Reusable Liner Bags on the market.**

**WE HAVE A CONCRETE COMMITMENT PLEDGING TO SUPPORT THE EU PLASTIC STRATEGY.**

WE ARE WORKING TOWARDS THE GOAL OF ENSURING THAT ALL PLASTIC PACKAGING IS RECYCLABLE BY 2030 AND WE OFFER ALL OUR CUSTOMERS THE MANAGEMENT OF THE ENTIRE PRODUCT LIFE CYCLE WITH OUR EXCLUSIVE ECOCIRCLE PROGRAM.

NOT ONLY QUALITY AND RECYCLABLE PACKAGING BUT ALSO THE COMPLETE PLASTIC DISPOSAL AND RECYCLING SERVICE.

# 100% Recyclable

### DESIGNED TO

RE//LINER 100% Recyclable, entirely developed by our R&D team, are made of a special grade of multilayer coextruded LDPE. Eceplast has made a precise choice: polyethylene for its linerbags. This material is safe and can be recycled very easily. Once used, the linerbags can be quickly removed and compacted. Ready to be re-granulated and transformed into new packaging.

The liner bag is really simple to recycle

### OPTIONS

- Food Grade approved raw materials (FDA - EU 10/2011) and certified production process (ISO 22000:2005)
- Closed cycle liner for food grade products
- Conductive - Antistatic film to prevent the risk of dust explosion
- Liner Bags for Free-Flowing materials

Comparison with traditional liner bags is really significant: a great savings in terms of time and money.

PP WOVEN FABRIC LINER	
HDPE LINER	
ECEPLAST STANDARD LINER	
<b>ECEPLAST RE//LINER</b>	Set-up time Cost

RE//LINER 100% RECYCLABLE IS A LOOP CLOSING FOR BULK PACKAGING FOR A ZERO WASTE PRODUCTION CYCLE.

WE OFFER COMPLIMENTARY COLLECTION OF USED RE//LINER

# Reusable

### DESIGNED TO

In nowadays complex logistics, is not always possible to re-load an empty container that may return to the loading station to load the same product again. In this scenario we can offer an optimal solution which will brings sensible savings on cost of Liners and related operations while reducing the environmental impact of disposing an used liner. Made of a special LDPE film with higher puncture resistance and increased mechanical properties to guarantee safe operational conditions.

Easy to install as a standard liner, have improved and reinforced fish tail re-closable discharge spout.

### OPTIONS

- Food Grade approved raw materials (FDA - EU 10/2011) and certified production process (ISO 22000:2005)
- Closed cycle liner for food grade products
- Conductive - Antistatic film to prevent the risk of dust explosion
- Liner Bags for Free-Flowing materials

Approved to work for minimum 5 complete loading and discharging cycles.

Only 20 kgs of packaging for shipping 125 Ton of product.

Save minimum 50% of packaging costs.

Eliminate 4/5 of operational costs.

PRINTED ON 100%  
RECYCLED PAPER
